ESTIMATES - Estimates for probable cost of construction, financing, acquisition of land and rights-of-way shall be made in accordance with the standard of care of the engineer's profession. However, the ENGINEER has no control over construction costs, competitive bidding and market conditions, nor costs of financing, acquisition of land or rights-of-way; and the ENGINEER does not guarantee the accuracy of such cost estimates as compared to actual cost or contractor's bids.

CONSTRUCTION PHASE - The ENGINEER shall not be responsible during the construction phase for the construction means, methods, techniques, sequences or procedures of construction contractors, or the safety precautions and programs incident thereto, and he shall not be responsible for the contractor's failure to perform the work in accordance with the contract documents.

PAYMENT - Partial payments shall be made monthly by the OWNER to the ENGINEER based on invoices submitted by the ENGINEER. If payment to OWNER is by a third-party agency, said payment shall be made to ENGINEER within seven (7) calendar days of receipt of payment to OWNER. The OWNER shall also pay the ENGINEER a late payment charge for any payments not made within seven (7) days of the date payment is received from any third-party agency at the rate of 1 1/2% per month. If payment to ENGINEER is by OWNER without a third-party agency, payments are due within thirty days of receipt of invoice by OWNER. Invoices not paid within 30 days will accrue interest at the rate of 1 1/2% per month.

TIME OF PERFORMANCE - The ENGINEER shall commence services upon receipt of written notice to proceed from the OWNER and shall provide its services within the time period set forth in the Agreement, subject to any delays caused by the OWNER, other agencies involved in review of the work or any other parties not directly under the control of the ENGINEER, and for reasons beyond the control of the ENGINEER.

MODIFICATIONS - In the event the OWNER required modifications and/or changes after services have been performed, which modifications and/or changes are through no fault of the ENGINEER; or in the event the OWNER desired additional services not covered by the Agreement, the ENGINEER shall perform such services as order by the OWNER, in writing and shall be paid for such services as may be agreed between the Owner and the ENGINEER, or on the basis of direct certified payroll costs chargeable to such work plus payroll taxes, insurance and fringe benefit costs, plus 150% of the total of all such payroll costs to cover overhead and profit.

SUSPENSION OR TERMINATION - In the event the services are terminated or suspended by the OWNER prior to the completion of the Agreement, the ENGINEER shall be paid an equitable amount proportional to the services rendered to the date of termination or suspension.

OWNER'S DUTIES AND RESPONSIBILITIES - The OWNER shall furnish the ENGINEER all legal services and opinions necessary in the performance of the services to be rendered by the ENGINEER. The OWNER shall furnish the ENGINEER with all project data necessary for the ENGINEER to reasonably rely upon the accuracy and completeness of the information.

The OWNER and the ENGINEER further agree to include a similar mediation provision in all agreements with independent contractors and consultants retained for the Project and to require all independent contractors and consultants also to include a similar mediation provision in all agreements with their subcontractors, sub consultants, suppliers and fabricators, thereby providing for mediation as the primary method for dispute resolution among the parties to all those agreements.
